

## PROJECT No.54

Project:	<b>Delivery and installation of cable-carrying structures and structured cabling systems (SCS) for Data Centers (DC)</b>
Client:	«GNC-Alfa» CJSC
Timeline:	2023
Contract type	Services
Scope of supply / services:	The project entailed the installation of intricate cable-supporting structures and a structured cabling system (SCS) for Armenia's inaugural Data Center (DC). The implemented SCS is crafted to forge a dependable physical layer network, facilitating robust communication and interaction among diverse network devices housed within the data center.
Vendors:	Siemon
